## ECX-2 ${ }^{\text {TM }}$ Double Net Excelsior Rolled Erosion Control Product

## Description:

The ECX-2 ${ }^{\text {TM }}$ is made with uniformly distributed $100 \%$ Aspen wood excelsior and two polypropylene nets securely sewn together with degradable thread. The tightly compressed blankets are wrapped and include a product label, code and installation guide. The blankets are palletized for easy transportation
The ECX-2 ${ }^{\text {TM }}$ has functional longevity of approximately 24 months, but will vary depending on soil and climatic conditions, and is suitable for slopes $2: 1$ to $1.5: 1$ and medium to high flow channels The ECX- $2^{\text {TM }}$ meets Type $3 . B$ specification requirements established by the Erosion Control Technology Council (ECTC) and Federal Highway Administration's (FHWA) FP-03 Section 713.17.
